

- Designed to reduce coil loading time
- Loading of a whole pallet on the plate
- Drum sensor allowing strip self-alignment and plate speed control
- Drum translation to keep constant strip speed
- No fixing to the ground is necessary, the uncoiler can therefore be easily moved and aligned

### RANGE AND FEATURES

Model	Max. load (kg)	Max. width (mm)	Thickness range (mm)	Max. coil diameter (mm)	Max. pitch (mm)	Speed (rpm)
<b>2210 B</b>	1800	150	0.1 to 1.6	1050	200	0 to 24

### DIMENSIONS
